

FOR JOB SEEKERS

Overcoming Barriers to Employment

Jewish Care's Employment and Education Centre (EEC) has received funding from the Victorian Government to provide tailored services and additional support to people from disadvantaged backgrounds to find suitable and on-going employment.

Our tailored services and support programs can assist you with:

- Access to training and career advice
- Job search assistance including resume and cover letter writing, and training for interview techniques
- Post-placement support and continued mentoring
- Assistance with some job seeking expenses.

If you are a job seeker with complex barriers to employment such as:

- Age
- Disability
- From a culturally diverse community

the Jewish Victoria Employment Network (JVEN) program is specifically designed for you.

In addition to the JVEN program, the EEC continues to support all members of the community seeking employment. For more information call us on 8517 5912 or email at eec@jewishcare.org.au

FOR EMPLOYERS

A Working Community is a Community That Works

Employers have a powerful role to play in improving employment opportunities for people from disadvantaged backgrounds.

The Jewish Victoria Employment Network (JVEN) program funded by the Victorian Government will provide support and a range of government benefits for organisations that offer employment to people from disadvantaged backgrounds such as:

- Age
- Disability
- From a culturally diverse community.

A few reasons why your organisation should consider providing employment to people from a disadvantaged background:

- It is the right thing to do
- Their gratitude will ensure loyalty and hard work
- They take fewer days off and stay in their jobs longer
- Have fewer workplace accidents
- Helps your business to build a strong relationship with the community
- Increases workplace morale and enhances teamwork.*

The JVEN program is conducted by Jewish Care's Employment and Education Centre.

For more details contact us on 8517 5912 or email at eec@jewishcare.org.au
